Israel Scientific Authority
for CITES

Israel's Annual Report for the year 2001 on trade in species listed in the appendices of

The Convention on International Trade in Endangered Species of Wild Flora and Fauna (CITES)

Prepared by

Dr. Simon C. Nemtzov for Israel's Scientific Authority

and Ms. Etty Sabag for Israel's Management Authority

Enclosed are two tables of data from Israel on imports and exports of species listed in the appendices of the CITES convention, for 2001.

Israel's trade policy necessitates an import and export permit from the Israel Nature and Parks Authority for all wildlife and for all protected species imported into the country (even non CITES-listed species). In addition, Israel issues official CITES permits for the import of Appendix I listed species, and for export or re-export of all CITES-listed species.

The Table of CITES Import Permits (Page 3) includes all permits issued for the import to Israel of Appendix-I listed species, including a description, the quantity (Qty) permitted, the ISO code for the country exporting to Israel, the number of the Israeli import permit, and the codes used for the Source and Purpose. Note: the quantity is the amount authorized in the permit, NOT the actual quantity imported. The table also includes all permits issued for species listed in Appendices II and III, but without codes or detailed descriptions. Virtually all of these are for live animals.

The Table of CITES Export Permits (Page 22) includes all permits issued for the export or re-export from Israel of CITES-listed species, including a description, the quantity (Qty) permitted, the ISO code of the destination country (Dest), the number of the Israeli export or re-export permit, the type of permit (export or re-export), the ISO code of the country of origin of re-exports (which in most cases is the country of last export), and the codes used for the Source and Purpose (Page 2). The country of origin is listed as "unknown" for non-native species that were exported from Israel after being seized by our enforcement people. Note: the quantity is the amount authorized in the permit, NOT the actual quantity exported. Note: Some export permits for plants (Flora) do not include a specific quantity and these are indicated as Quantity unknown (unk).

Please note: All Quantity numbers in the tables represent the amount authorized in the permits and NOT the actual number of specimens in trade.

Israel Scientific Authority
for CITES

CITES Source and Purpose Codes

Res. Conf 10.2 (Rev) recommends that Parties state, on each of their permits and certificates, the **purpose** of the transaction using the following codes:

- T** Commercial trade
- Z** Zoos
- G** Botanical gardens
- Q** Circuses and traveling exhibitions
- S** Scientific
- H** Hunting trophies
- P** Personal
- M** Biomedical research
- E** Educational
- N** Reintroduction or introduction into the wild
- B** Breeding in captivity or artificial propagation
- L** Enforcement

The following codes are to be used to indicate the **source** of the specimens:

- W** Specimens taken from the wild
- R** Specimens originating from a ranching operation. (Resolution Conf. 11.16 states: 'ranching' means the rearing in a controlled environment of specimens taken from the wild)
- D** Appendix-I animals bred in captivity for commercial purposes and Appendix-I plants artificially propagated for commercial purposes, as well as parts and derivatives thereof, exported under the provisions of Article VII, paragraph 4, of the Convention
- A** Plants that are artificially propagated in accordance with Resolution Conf. 11.11, paragraph a), as well as parts and derivatives thereof, exported under the provisions of Article VII, paragraph 5, of the Convention (specimens of species included in Appendix I that have been propagated artificially for non-commercial purposes and specimens of species included in Appendices II and III)
- C** Animals bred in captivity in accordance with Resolution Conf. 10.16 (Rev.), as well as parts and derivatives thereof, exported under the provisions of Article VII, paragraph 5, of the Convention (specimens of species included in Appendix I that have been bred in captivity for non-commercial purposes and specimens of species included in Appendices II and III)
- F** Animals born in captivity (F1 or subsequent generations) that do not fulfill the definition of 'bred in captivity' in Resolution Conf. 10.16 (Rev.), as well as parts and derivatives thereof
- O** Pre-convention
- U** Source unknown (must be justified)
- I** Confiscated or seized specimens

- From Res. Conf 10.2 (Rev) and Res. Conf 11.16
